

Global Data Center Solutions

Broad capabilities for large and mega-scale assets, from pre-construction to full operation placed on a quota share basis.

The rapidly evolving Data Center segment is defined by unprecedented growth and increasing complexity. To deliver for clients, brokers need an experienced partner with solutions and deep expertise across multiple coverage types.

Intact supports clients from pre-construction, construction and through to operations with adaptable and coordinated coverages, risk control services, and consistency you can rely on. Together, we make complex placements feel straightforward.

Let's start something.

Coverage highlights

Multi-phase solutions
from pre-construction through to operational coverage with product expertise at each step.

Dedicated claims and risk engineering resources in-house bring deep knowledge of the unique risks our Data Center customers face.

This material is intended as a general description of certain types of insurance coverages and services. Coverages and availability vary by state; exclusions and deductibles may apply. Please review the specific policy language or consult with the applicable carrier for detailed information regarding coverages, terms, and conditions. [Some coverage may be written by a surplus lines insurer through a licensed surplus lines broker. Surplus lines insurers do not generally participate in state guaranty funds and insureds are therefore not protected by such funds.]
